The Story That Boyle Wanted to Tell in Court-Hints at a Course of Blackmall of One of Whitla Family-Man Held in Boston for Sending Letter.

MERCER, Pa., May 8. - Mrs. Helen Boyle was to-day found guilty of complicity in kidnapping Willie Whitla of Sharon. The jury only took one ballot after court adjourned in the morning, which was ealed and was opened at 1:34 P. M. Mrs. Boyle was in the court room with William McDermott, her brother, of Chicago. She beard the verdict with blanched face, for she had anticipated that after the appeal of her attorney, ex-Judge Samuel Miller, to the jury she would be acquitted. Judge Miller told the jury that the woman had committed no orime in Pennsylvania, but in Ohio, and that there was where she should be tried. He admitted her complicity in the kidnapping, but held that the court had no jurisdiction. He will file a motion for a new trial.

Judge Williams said he would sentence Boyle and his wife on Monday.

Life in the penitentiary would kill me in a week or ten days, and rather case. She added:

tentiary we will not go alone. Others afficted before and during the trial.

This is the first time that such a situa there. Half the truth has not been told in this case. One other man, who planned the whole affair, has not been arrested.

"I am willing to suffer for any crime I may have committed, but there is no evidence that I have been mixed up in this case, and rather than suffer injustice from this court I will quit this earth and take justice from my Maker."

The defence that Boyle wanted to make was that some time ago he "got the goods" en a relation of the Whitla family; that this man had been making payments regularly for some time to Boyle, but that the failed to make the payments on February 11 and March 1, and that this man suggested to Boyle the kidnapping of Hille, provided that the ransom money of \$10.000 would be forthcoming. For doing so, it is intimated, Boyle was to get \$5,000 and was to ask for no more money from the instigator, who was to get the other half. According to Boyle's of \$10,000 would be forthcoming. For doing so, it is intimated, Boyle was to get \$5,000 and was to ask for no more money from the instigator, who was to get the other half. According to Boyle's statement to the attorney the whole plan was framed up and mapped out, not by Boyle or Mrs. Boyle, but by the Sharon man. At the trial neither Schloss, the janifor of the school; nor the teacher, Miss Lewis, was called. The reason alleged is that it was Willie's relative who called at the school and so easily got the boy and transferred him to Boyle at Mrs. Boyle railed against the women of Mercer, after the trial. "I have been craried out as follows:

Taylor of Philadelphia spoke on "Church and Health," and he had some raps for ministers and missionaries. He said in part:

The deep interest shown throughout America in mind cure, faith cure, metaphysical healing, moral orthopedics, suggestive or persuasive treatment, based as most of these are upon the assumption of a divine power residing in each one competent to produce optimistic results, is an evidence of wholesome evolution. How many clergymen can qualify to enter into such an alliance? Among the clergymen of March was fluctuating excitely, so that it was will not a few whoseem to me fitted to assume the work of healing. Mrs. Boyle railed against the women of Mercer after the trial. "I have been crucified to-day to satisfy the venom and jealousy of some women of Mercer," was the comment of Mrs. Boyle. Continuing, she said: "Had I been a plain, ordinary, common looking girl, these same women would have pitied me, but because I am not plain, because I am not ordinary, because I am above the average, because they don't understand me, I have been found guilty of a crime of which I am entirely

#### INSURANCE COS. RESTRAINED. State of Indiana Proceeds Against 130 Foreign Concerns.

INDIANAPOLIS. May 8 .- A temporary estraining order against 130 foreign insurance companies now transacting business in Indiana and against Thomas McMurray, Jr., of the Indianapolis Fire Inspection Bureau and E. M. Sellers of the Indiana Inspection Bureau to keep them from performing any act pursuan to a combination was granted to-day by Judge Weir of the Superior Court. The order was granted on a complaint filed by the State of Indiana on relation of James Bingham, Attorney-General.

The effect of the restraining order will be to prevent any insurance com-pany from requiring any agent to send his risk to the stamping department of either of the inspection bureaus named to be approved by a stamping clerk. In his complaint the Attordey-General asks for a temporary injunction and on final hearing a permanent injunction will be to prevent any insurance com-

for a temporary injunction and on final hearing a permanent injunction.

Judge Weir said that he had issued the restraining order, but he did not know just exactly the nature of the complaint which had been filed. He did not know whether the allegations in the complaint would apply to the Indianapolis Fire Insurance Association, which, it has been charged, has discriminated against certain agents. The nature of the complaint filed, however, will apply to the Indianapolis Fire Insurance Association if it be proved that the association has discriminated against any insurance company by refusing to cooperate with it in assuming risks.
